Patents data

STAT 330: Lecture 15

- number of utility patent ("patents for inventions") grants from 2011, by county
- demographic variables from the American Community Survey
 - some variables may be missing for smaller counties
- ► San Jose, CA (Santa Clara County)
 - ▶ 3rd largest city in CA, 10th largest city in US
 - ▶ leads all US cities in generating patents

On your own: Explore the patents data in SAS.

Discussion

	edu25					
	0 1					
	N N					
region						
Midwest	89	104				
Northeast	51	86				
South	193	155				
West	58 72					

Which of the following is a correct interpretation?

- 1. 72 people in the Western region with higher education levels received patents
- 2. 72 counties in the Western region with higher education levels received patents
- 3. 72 patents come from the Western region with higher education levels
- 4. 72% of patents come the Western region with higher education levels

On your own: This is a (one/two/three) dimensional table where the riables gender and country (crossed/concatenated).

The statement that generated this table is:

- 1. TABLE country*gender, job_title ;
- 2. TABLE job_title, gender*country;
- 3. TABLE gender, country, job_title ;
- 4. TABLE job_title, country gender ;
- 5. TABLE country gender, job_title;

STAT 330: Lecture 15 12 / 30

Structure Statistics Overview Display 000000000

Creating totals

The keyword ALL can be used to create overall summarizations.

▶ ALL can be included in any table dimension TABLE region ALL, edu25 ALL;

▶ ALL can be included with concatenated variables TABLE region, edu25 ALL unemp10 ALL;

▶ ALL can be included with crossed variables TABLE region, edu25*unemp10 ALL;

use parentheses to summarize within group(s)

TABLE region, edu25*(unemp10 ALL) ALL;

STAT 330: Lecture 15

13 / 30

Cell colors

► To apply a background color to all cells, use the following in a TABLE statement:

```
|variable*{STYLE={BACKGROUND=mycolor}}|
```

- ► To highlight individual cells based on their values (trafficlighting)

 - 2. Apply the format to the background style in the TABLE
 statement
 statistic*{STYLE={BACKGROUND=myhl.}}
- ► Predefined SAS colors: http://support.sas.com/documentation/cdl/en/graphref/67881/HTML/default/viewer.htm#n161ukdyz9wpfsn1nh8sihforvyq.htm
